# **IMPORTANT CHANGES** MADE IN CURRENCY BILL BY COMMITTEE

First Day's Executive Work Results in Material Alterations in Administration Measure.

INCREASE IN BOARD MEMBERS

Secretary of Agriculture and Comptroller Are Eliminated.

BIG QUESTION NOT CONSIDERED

Plan to Substitute Central for Regional Bank Up Later.

PERFECTING OF THE DETAILS

It is Decided to Eliminate Organisation Proposed by House and to Have Reserve Body Appointed Immediately.

WASHINGTON, Oct. 29.-Important changes in the administration currency bill resulted from the first day's executive work on the measure by the senate committee. The committee passed over for later action the proposition to substitute a central government-controlled bank for the regional bank plan in the bill, on which the members were evenly divided and proceeded to perfect the detalls of the measure.

The complexion of the proposed federal reserve board was altered materially by amendments adopted today and probably will be changed further. It was deided to increase the membership of the board from seven, as fixed in the house bill, to nine, and to eliminate the secretary of agricultude and the comptroller of the currency from service on the board. Another amendment is pending to take off the board the secretary of the ervice would expire each year. This lows: provision is designed to meet the demand that the service of members of the board

be given continuity to enable them to profit by their experience on the board. It was decided to eliminate the organixation proposed by the house bill and to have the federal reserve board appointed immediately, with the power to organine and place in operation any system devised, whether a central bank plan or bank scheme-as finally agreed

large part of today's session was devoted to a discussion of the number of regional banks to be created by the bill if the regional plan is maintained, but no conclusion was reached. The ad-ministration supporters in the committee endeavored to keep the number as hear twelve as possible, but other members favored four, five or six banks. It was argued that New York, Chicago and St. Louis, the present central reserve cities, would need regional institutions, and New Orleans and San Francisco were mentioned as possible locations. A decision on the question probably will be reached tomorrow.

The committee will proceed to develop both the regional and the central bank plan so far as possible along parallel lines until each is perfected so far as the committee can agree. Then the vote will be taken on the two plans.

### Plumbers' Combine is Under Scrutiny

SIOUX CITY, Ia., Oct. 29.-The government's investigators of the alleged national Plumbers' trust continued here today with Assistant United States Attorney General Gregg in charge. The proceedings before the federal grand jury shrouded in much secrecy. Manufacturers, wholesalers and contracting plumbers from many parts of the country are being examined. As to the steps in the government's plan with regard to the plumbers, Mr. Gregg was noncommittel. He said the action to be taken depended upon the weight of the evidence to show an illegal combination on the part of the

NEW YORK, Oct. 29 .- The letter convict in Sing Sing as given out day by William Sulzer, deposed ge and present candidate for the st sembly on the progressive tick again today the axis about volved the heated controversy of allty and invectice incident to New York's riayoralty campaign.

From his cell in Sing Sing, ex-State enator Stephen J. Stilwell repudiated the correctness of his written application for pardon, as made public by Sulzer. He was backed up by James M. Clancy, warden of the prison. Standing by Stilwell, but denying that he was attempting to shield Tammany, Clancy wrote out his resignation and sent it to the state department of prisons.

The tSilwell letter, as given out, was an application for a pardon in return for an exposure of "boss rule" in New York City. Stilwell's alleged overtures along this line were further delayed by John Hennessy, campaigner against Tammany, He told of a conference with Stilwell in prison, of Stilwell's boast that he could "put Murphy in jail" and could intimidate certain legislators and swing them in line for Sulzer at the impeachment proceedings.

Stillwell Demanded Pardon First. However, according to Hennessy, Stilwell demanded his pardon first and no terms could be agreed on. The fact that Hennessy even outlined what took place Appeals of Convicted Iron Workers between them was credited today as having brought about Warden Clancy's resig-John B. But his eagerly awaited reply to Premier Asquith's offer of a compromise October 25 consisted merely of a statement that the unionists would carefully consider any proposals the prime minister cared to make relative to a solution of the home rule probem, if a solution were possible. Mr. Law expressed the opinion that the only logical way the government could avoid the responsibility og plunging the country into civil war was to secure a mandate from the people by general election, which, if it favored home rule, would be acquiesced in by the unionists. He said he could not speak for Ulster, ven settle the question there. The unionist leader compared the situation in Ulster to conditions in America prepeding the civil war. He said he had urged Sir Edward Carson to attend the neeting so that the pledge which he
